

Potential For A Joint Use Airport

Client

Facts

Period 2002

Project Country

**Economic Development Research Group for the Fort Drum Regional Liaison
Organization, the City of Watertown and Jefferson County (NY) , 2002**

For the Fort Drum Regional Liaison Organization, the City of Watertown and Jefferson County (NY), EDR Group conducted a study of the potential costs and benefits of a proposed new regional airport facility, jointly sharing a military airfield. This project has also included a national study of the statistical relationship between local population size, local passenger volumes, and local airport capture rates, and factors affecting those relationships
