Macroeconomic Forecasting for Atlanta

Client

Atlanta Regional Commission

Facts

Period	2012
Project Country	United States

EDR Group (now EBP) provided technical advisory services to the Atlanta Regional Commission in support and review of macroeconomic impact forecasting of the Atlanta metro region under the proposed list of road and transit investments under the Transportation Investment Act (TIA). Currently, Metro Atlanta faces a transportation funding crisis and 70% of the region's transportation spending will be used to maintain the existing roads and systems over the next 30 years.
